

ENNA Congress, 2nd-3rd September 2011

Dr. Jita Hoogerduijn, PhD

Nurse scientist, Utrecht University, the Netherlands

Curriculum Vitae

Jita Hoogerduijn is a nurse and nurse scientist, and got her PhD in April 2011. The title of her thesis was The identification of older hospitalized patients at risk for functional decline. She works in the "Care for the Chronically ill" research group of the University of Applied Sciences Utrecht (the Netherlands) and scholarship and research is her domain. She started in 1967 as a nurse, working in hospitals, maternity care and homecare. Since 1981 she is working as a lecturer in the Nursing bachelor education program. Since 2002 her focus is research and development. Internationalization has her special attention.
